## **6 Gambling Secrets Most People Don't Even Know!**

The following are some valuable casino gambling tips on two games I have chosen to review. Blackjack and the game of slot machines. I will expose six separate pointers for each game so you can increase your winnings and have more fun, playing smarter and wiser. I will reveal some good techniques to help you remember that gambling is a business not a game!

**Blackjack casino gambling tips:**

**Blackjack tips #1** - If you happen to be holding a 9 or 10 card, and you have the option to double down, on a four or under don't do it. It might seem like a good idea but the dealer (your enemy) has a good chance that he won't bust and actually hit a higher card total than you yourself could possibly get!

**Blackjack tips #2** - If you have 19 or above that is the only time I recommend you buy insurance when the dealer has pulled an ace and calls for bettors to place insurance bets. If you buy insurance for a lower amount you will end up wasting your bank roll which is never a good idea.

**Blackjack tips #3** - This is a very controversial statement but I actually recommend you hit on 16's. You can land a smaller card that can get you up to 20 or 21. In my experiences it was always worth while to hit the 16's.

**Slots casino gambling tips:**

**Win at slots #1** - Only hit up casinos either offline or online that have proven high slots payouts so you don't get your bankroll sucked dry.

**Win at slots #2** - Inside the land based casinos the best way you can win at slots is by playing at the different high traffic area slot machines. They usually have better payouts since people will play them so often, so hit them up as well!

**Win at slots #3.** Always play maximum bets on the slot machines you play! When you play max coins you are betting more and will win more money in the process so do it and do it wisely.

**When you know how to play at the casino properly using those 6 casino gambling tips you will actually find your winnings will increase!**

## **7 Winning Slot Machine Secrets Revealed!**

**I would like to share with you ways to win at slots with the following 7 tips I can share with you below. Using slots tips is essential and playing the smart way can bring you bigger wins and payouts.**

- 1. Only play at casinos (online or offline) with high payout ratios.**
- 2. When you are inside a land based casino, to win at slots you have to play the high traffic area machines. They have better and usually higher payouts then others since they attract players that want to win at slots.**
- 3. Always play the maximum coins allowed to ensure you win more money at slots. When you are on a progressive machine the payouts can be much bigger when you follow these slots tips!**
- 4. Higher denomination slot machines usually have better payouts then smaller money based machines. Play the quarter and dollar machines over nickel and dime machines that you win less at.**
- 5. If you want to win at slots, realize that the casino will put a loose paying machine amongst tight machines, so don't play two side by side. You will just end up losing more money.**
- 6. To win at slots look for multiple pay line machines. Each coin you enter raises your chances of winning a different reel or cash prizes then you would have otherwise.**
- 7. Remember to never play with your winnings from slot machines. Set a budget and don't spend what you win at the slot machines.**

**Following these simple tips you can win at slots a heck of a lot easier without knowing these slot machine tips. Enjoy the machines and play to win to lower the casino edge against you!**
